

rotary hut project shelter-health-security

no. of huts donated to date:

The Rotary Hut project finds funding for the building of new huts and homes for the poor and under privileged families throughout Asia.

The Rotary Hut project is currently being adopted by many local schools in the Essendon community and importantly, VCE students are being encouraged to visit Asian countries to help build the huts during the “schoolies” end of year week.

Each time AUD\$1000 is donated by participating companies or organisations to the Rotary Hut project, the Rotary Club of Essendon licenses the addition of hut insignias to be placed into the donation total area.

The Rotary Hut project is an initiative of the Rotary Club of Essendon.
